

Claymont High School

Preparing All Students for Success in Life

August 7, 2018

Dear Claymont High School Family,

Welcome to a new and exciting year at Claymont High School! Although I am new to the position of high school principal, I am not new to Claymont. I graduated from Claymont High School and taught for several years in the district, so I am honored and proud to once again be part of the Claymont community. At Claymont High School, we strive to make every student feel safe, welcomed, valued, connected and part of our Claymont Mustang family. Our teachers and support staff work together tirelessly to ensure that each child is challenged with rigorous, engaging and supportive educational and social experiences that will ensure college and career readiness at the end of their four years with us.

We have an exceptional faculty and support staff, and Mr. Eric Henry will once again serve as Assistant Principal. He is a dedicated and fair educator who works to support students and staff alike. We believe that every student should graduate from our high school prepared to be a contributing citizen in our community, and ready to meet the demands of postsecondary education or a meaningful career. To that end, we will provide:

- A safe school environment
- A nurturing atmosphere that provides for the physical and emotional needs of all students
- A focus on high levels of learning for all students based on Ohio's Learning Standards
- A collaborative atmosphere where staff and students work together to reach goals
- A school community where everyone is accountable for their own responsibilities and actions.

We look forward to getting to know you and being a part of your child's life this year.

Sincerely,

Amy Lint Conn, Principal
